PROFILE

Creative and solutions-driven Front-End & Full-Stack Web Developer with 12+ years of experience building responsive websites, eCommerce platforms, and web applications. With a background in graphic design and front-end development, combines visual creativity, technical problem-solving, and an understanding of user experience to deliver functional, reliable digital solutions.

Experienced in custom WordPress development, eCommerce platforms, API integrations, and collaborative development environments. Career highlights include helping deliver a 1,000+ page WordPress website in six weeks and developing a website that reached approximately 60,000 monthly organic visitors. Recently expanded into full-stack application development using React, TypeScript, Node.js, Express, PostgreSQL, Docker, and Azure.

TECHNICAL EXPERTISE

Cloud, DevOps & Version Control Microsoft Azure, Azure Container Apps, Azure Static Web Apps, Docker, GitHub Actions, CI/CD, Git, GitHub, Azure DevOps

Web Operations & Integrations API Integrations, Gravity Forms, Zapier, Cloudflare, Website Migrations, Performance Optimization, Technical SEO, Accessibility, Quality Assurance (QA), Troubleshooting

FEATURED ENGINEERING PROJECT

CT TICKET SYSTEM | Full-Stack Application • 2026

React • TypeScript • Express • PostgreSQL • Docker • Azure • GitHub Actions

- Designed and developed a full-stack ticket management application using a React/TypeScript frontend, Express REST API, and PostgreSQL database for persistent data storage.
- Implemented ticket management workflows, authentication, role-based access control (RBAC), and administrative functionality.
- Containerized the backend using Docker and deployed the application to Microsoft Azure using Azure Container Apps and Azure Static Web Apps.
- Implemented CI/CD pipelines with GitHub Actions to automate testing, container image builds, and application deployments.

PROFESSIONAL EXPERIENCE

NORTHWING DIGITAL

Web Development Ticket Manager | Hopkins, MN | May 2025 – July 2026

- Managed web development tickets from requirements and prioritization through task assignments, troubleshooting, QA, deployment, and post-launch support.
- Coordinated a four-developer team, supporting WordPress development, maintenance, website enhancements, and production issue resolution.
- Helped deliver a 1,000+ page WordPress website in approximately six weeks, contributing to PHP/SQL content migration, reusable templates, and automated content workflows.
- Developed and maintained custom WordPress and WooCommerce solutions using HTML, CSS/SCSS, JavaScript, PHP, ACF, Elementor Pro, and Gravity Forms.

ANCHOR GROUP
SuiteCommerce Theme Developer | Oakdale, MN | March 2024 – January 2025

- Developed and customized responsive SuiteCommerce themes using HTML5, CSS3, SCSS/SASS, and Handlebars.js.
- Modified front-end templates, layouts, and components to improve user experience and support client-specific eCommerce requirements.
- Collaborated with JavaScript developers and supported NetSuite configurations to troubleshoot platform functionality and integration issues.

PERRILL
Front-End Web Developer | Minnetonka, MN | April 2021 – September 2023

- Developed and maintained responsive WordPress and WooCommerce websites using HTML5, CSS3, SCSS/LESS, JavaScript, PHP, and Advanced Custom Fields (ACF).
- Built custom WordPress templates, reusable components, and Custom Post Types (CPTs) to support complex website functionality and content management.
- Enhanced an internal ACF-based template builder by adding configurable CSS classes and IDs, improving flexibility and reusability across projects.
- Troubleshot front-end functionality, optimized website performance, and supported ongoing maintenance and production updates.

PROPHASE MARKETING
Web Developer | Eden Prairie, MN | October 2019 – April 2021

- Developed, redesigned, and maintained custom WordPress websites using templates, Divi, WPBakery, Elementor, HTML5, CSS3, and JavaScript.
- Served as the primary web developer and designer across multiple client projects, managing development from initial requirements through testing and deployment.
- Customized WordPress templates, page layouts, and components to meet client branding, functionality, and usability requirements.

HOOKER & COMPANY ADVERTISING
Web Developer | May 2017 – October 2019

- Developed and customized websites using WordPress, Joomla, HTML, CSS, JavaScript, and PHP, adapting templates, layouts, and functionality to client requirements.
- Integrated a client website with an external ticketing platform, enabling ticketing functionality within the website experience.
- Managed website hosting, domain configuration, content updates, and migrations, resolving technical issues to maintain reliable production websites.

YADA SYSTEMS
Support Technician | August 2008 – May 2017

- Provided technical support for automotive paint and shop management systems, troubleshooting software, hardware, and network issues for business customers.
- Developed an internal technical support website using WordPress, HTML, CSS, Windows Server/IIS, and Microsoft SQL Server to organize and retrieve support information.
- Delivered on-site technical assistance and customer training, resolving system issues and improving day-to-day operations.
